ARBAZ KHAN

Full Stack Developer (MERN)

Purulia, West Bengal, India | +91 9002636301 | ak0297305@gmail.com | GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Entry-level Full Stack Developer (MERN) with hands-on experience building React front ends and Node.js/Express REST APIs on MongoDB across three full-stack projects, including JWT authentication with role-based access, Razorpay payment integration, Cloudinary uploads and admin dashboards. Additional project experience with Python, SQL and Scikit-learn for machine learning and data analytics.

TECHNICAL SKILLS

Languages & Fundamentals: JavaScript (ES6+), Python, SQL, Data Structures & Algorithms, OOP, DBMS
Frontend: React.js, React Router, Context API, Axios, Vite, HTML5, CSS3, Tailwind CSS, Responsive Design
Backend: Node.js, Express.js, REST APIs, JWT Authentication, Role-Based Access Control, Socket.IO
Databases & Tools: MongoDB Atlas, Mongoose, MySQL, Git, GitHub, Postman, Razorpay, Cloudinary, Vercel, Render
AI/ML & Analytics: Pandas, NumPy, Scikit-learn, Random Forest, K-Means, PCA, Streamlit, Plotly

SELECTED PROJECTS

TradeHub – Virtual Stock Trading Platform | React.js, Vite, Node.js, Express.js, MongoDB, JWT, Socket.IO, Razorpay

- Built a MERN stock-trading simulator with JWT authentication, admin role access, watchlists, holdings and portfolio P&L analytics, plus an admin dashboard for managing users, stocks and feedback.
- Implemented buy/sell order APIs using MongoDB transactions to keep wallet balance and holdings consistent; integrated Razorpay (server-side signature verification) for wallet top-ups and Socket.IO for order, wallet and notification events.

ShopHub – Full Stack E-Commerce Platform | React.js, Node.js, Express.js, MongoDB, JWT, Razorpay, Cloudinary

- Built a MERN e-commerce platform with JWT authentication, product catalogue, cart, coupons, orders with stock updates, shipment tracking, reviews and PDF invoice downloads; added Joi request validation and rate limiting.
- Integrated Razorpay with HMAC signature verification and webhook handling, Cloudinary for product images, and an admin dashboard for products, orders, users, reviews and sales analytics.

Portfolio & Blogging Platform | React.js, Node.js, Express.js, MongoDB Atlas, JWT, Cloudinary

- Built a full-stack portfolio and blogging platform with JWT authentication (HttpOnly cookies), role-based access, and blog CRUD with categories, tags, search and likes.
- Implemented comments, ratings, in-app notifications and Cloudinary image uploads, and built an admin dashboard for managing users, posts, comments and reviews.

ADDITIONAL AI/ML PROJECTS

WebScrapeX – Product Matching | Python, Scikit-learn, Pandas, Streamlit

- Built a Random Forest classifier that predicts whether two e-commerce product records are the same product, using 11 engineered features from a cleaned 171,200-record WDC dataset, with a Streamlit dashboard.

InsightBank Analytics – Banking Analytics Dashboard | Python, MySQL, Pandas, Plotly, Streamlit, Scikit-learn

- Ran SQL analytics on MySQL for bank marketing-campaign data and built an interactive Streamlit/Plotly dashboard with filters and KPIs, plus a Gradient Boosting conversion model evaluated with ROC-AUC and 5-fold cross-validation.

EDUCATION

B.Tech in Mechanical Engineering — Bengal College of Engineering & Technology, Durgapur — CGPA: 7.5/10 — 2024
Diploma in Mechanical Engineering — Bengal College of Polytechnic, Durgapur — 69% — 2020
Higher Secondary (Class XII) — National Institute of Open Schooling (NIOS) — 62% — 2017
Secondary (Class X) — National Institute of Open Schooling (NIOS) — 60% — 2015

CERTIFICATIONS

Prime (AI/ML) – Artificial Intelligence & Machine Learning — Apna College — 2026
Delta – Full Stack Web Development — Apna College — 2025
